WOODLAND EDGE

MEETS ALPINE SOLO CHALLENGES

When preparing the draw pile, return **90 cards** to the game box (like in the 2-player-game). Some scenarios require you to already have a certain card in your hand at the start of the game (*you can recognize this by the exclamation mark ! in the table*). Before you shuffle the deck, you take this card into your hand and then only draw 5 cards from the deck, so that you start with 6 cards in your hand. Other than that, the rules of the solo mode apply.
