TUNNELS

All six of the new tiles show one or more **Tunnel Entrances**. When placed, all Tunnel Entrances **within the same mountain range** are considered connected with each other (*underground*). Roads leading into a mountain through a Tunnel are connected.

Example: The illustration shows two mountain ranges. Tunnel #1 belongs to one mountain range, Tunnels #2 and #4 belong to the other. The roads at #2 and #4 are connected. Roads #3 and #5 going over the mountain are not connected with each other, nor are they connected with roads #2 and #4. Moving the Journeyman of the Journeyman expansion from Tunnel #2 to #4 would only cost 1 movement point.

WHISKY BARRELS WITH VP SYMBOLS

Every income phase, these whisky barrels provide 1 victory point if they are connected to your castle via roads (*and/or Tunnels*).
